USED CARS

Our Policy in Selling Used Cars is Just What You Would Hope

When you buy a car which has passed from the hands of its first owner, you would like to be sure of two things—First—you want to know, of course, that the used car you buy has a generous amount of unused mileage in it. Second—you hope you are not being charged for an excessive trade-in allowance which the dealer may have made in order to sell a new car. In short, that you are paying just what the Used Car is worth.

The Ford dealer's policy in selling used cars is exactly what you would hope to find. For instance, when we sell a Model T Ford, which has been traded in for a Model A, that used car has been thoroughly and carefully reconditioned. With it goes a guarantee. When we sell used cars of other makes (and we have many kinds traded in for Model A Fords) we tell you frankly what you may expect, and the price is based on the amount of mileage we think you'll get from the car.

Regarding the price of the used cars we offer, you can be certain there has been no inflation to care for excessive trade-in allowances. The new Ford car is priced right—so close to the cost of production and selling that there is no margin, or leeway, for unreasonable trade-in concessions.

For these reasons it is worth your while to come to us when you are thinking of buying a used car. Nearly always we have a generous selection. Come in to-day and look over the bargains in unused mileage.

'The Letter'

THE drama of a woman who has been acquitted for murder, the only evidence to prove her guilt—A Letter—written to the dead man on the evening of the murder asking him to call on her. Who has the letter? She must have it at any cost! See this photoplay of great dramatic heights. Don't miss it! A strong picture of the type that is in high favor with modern audiences.

Novelty Feature

LOCAL ITEMS

Mr. A. J. Flood and family are enjoying automobile trip in the northern part of the province.

Mr. and Mrs. Bothamley, of Hollywood, Cal., are guests of Mr. and Mrs. Frank Keiver.

Harry D. Wisner attended the short course Agricultural School at Claresholm and reports a good time while there.

Mr. J. Williams, provincial sanitary inspector, was in town this week in the discharge of his duties.

Miss Mary Bittorf of Calgary spent the week end with her parents Mr. and Mrs. Geo. Bittorf.

BORN—At Lake McGregor, on Monday, July 22, to Mr. and Mrs. Pleasant, a son.

Mrs. B. Innes, Mrs. E. McAuley, and Mrs. A. Wisner and family, have returned from attending The Gospel Conference Convention at High River.

BORN—At Mrs. E. Speer's private hospital, in Vulcan, on Saturday, July 13, 1929, to Mr. and Mrs. Robert Vailes of Armada, a son.

The Ladies' Circle of the Church of Christ will hold a cake sale at King's Drug Store on Saturday, July 27th. Come and get something tasty.

K. R. McLean, of McLean & Anderson, Sight Specialists, 224 8th Avenue West, Calgary, visits the King Drug Store every second Saturday. Make appointments at Drug Store or with Drs. Carson & Burke.

Messrs. Max Rutherford and Jack Seigler, original members of Vulcan band, were in town last week and so were enabled to congratulate their former associate bandmen on their recent successes.

School Inspector McGregor has been transferred to Calgary and his position in this district has been taken by Mr. Sullivan, late of Medicine Hat.

Gravel, oil and water are making an improvement in the appearance of our main streets; the trees and boulevards combine to enhance the beauty of the residential section, and with a little rain we will be able to boast of one of the prettiest towns in Alberta.

Mayor Butchart returned on Tuesday morning from a trip to Edmonton. While in the capital the mayor had a discussion with the fire chief of that city as to the recent blaze at Wainwright, and gloried that this was started by hot ashes. Vulcan citizens will, no doubt, take extra precautions.

Miss Norma Holmes, who has been teaching at Canmore for some time, and Mr. A. E. White, of Vernon, B.C., have been engaged for the high school staff at Vulcan and will commence their duties next term. Miss Holmes is a daughter of Mr. N. Holmes, of this town, and therefore needs no introduction, while Mr. White comes with the very best of credentials. The public school staff will be unchanged.

ROSE CULTURE IN VULCAN

For five days the editorial desk has been adorned by a beautiful pink rose of perfect shape which has been admired by many visitors. This specimen came from the garden of Mr. A. J. Flood, where several other varieties and colors may be found in bloom. This garden has been carefully tended during the early summer and here peonies are still in bloom as well as pansies and other flowers.

Mrs. Flood, who finds keen enjoyment in tending this lovely plot, is to be congratulated on the result of her labors.

IN AND AROUND THE CLUB

Well, it looks like rain, but never rains.

The Bank reports a good time at Lethbridge, and incidentally they copied everything that was there to copy.

One of our uncles went fishing, but we did not hear anything about the fish that got off the hook, and our other uncle intended to fish, but met some old friends and forgot all about what he started out for. They both had a good time, anyway, we bet.

The health inspector paid us a visit over the week-end, and improved our health considerably by his jokes and magic. Some of the boys are now trying to produce five spots from one spot; but even the weather is too hot for that.

Have you taken up horse shoes yet? It seems to be the legitimate successor of golf and softball. Well, we are progressing.

The moon we hear all around these days. Why can't we have a ball team to lick Blackie? and why can't we have Sunday games? Well, why can't we?

Never mind, boys, we will have a good time next week with the Chautauqua and Lomond Fair.

The Winnipeg boy, Billy Drain, who is under the management of our old friend, Frankie Jackson, has quite a few admirers among the local fans who saw him work out in Calgary during the Stampede. Of course, evidence of the eyes during Stampede week is not always reliable. However, if we live till fall we may get them to back their fancy and have this boy meet Mel Cowie.

While on the subject of boxing we might mention that our old college chum "Tex" has been under the weather for quite a long time now, and on Saturday went to Banff to recuperate. We all hope to see him return with his health restored, and the same old line.

"Are you fond of moving pictures, lass?"

"Aye, Sandy."

"Then maybe you'll help me get a few dozen out of the attic?"

THE CROPS

Crops in Southern Alberta have deteriorated during the past week. This section of Western Canada, which has been the best of any district, cannot now expect a bumper crop, but with general rains during the present week it would still be possible to reap considerably better than an average crop. Last year Southern Alberta's wheat crop averaged in the neighborhood of 27 bushels to the acre. There is still hope for better than 20 bushels average this year as there is a heavy stand, and the heads are well formed and of good length. The determining factor, however, will be the amount of available moisture during the next two or three weeks to fill the heads.

BAND TENDERS THANKS FOR LOCAL SUPPORT

In what was a very close competition, denoted by the difference of one mark only between the first two in the adjudication, the prize for the best band at the fair was, on Wednesday evening, last week, awarded to the Vulcan band. The second went to the Western Canada Collieries band, Bellevue, and the third to the Beiseker band. The prizes were of the cash values of \$300, \$200 and \$100.

The adjudication was made on the fair grounds by George Bower, formerly of Lethbridge and now of Calgary. The difference between the first and second winners was so small that the adjudicator had to ask the Vulcan band to play again before coming to a final decision.

Massed Bands
The competition aroused the keenest interest, and was followed by a large crowd who had assembled in the grandstand. The four bands, with Michel the fourth, played as a massed band, with Mr. Bower as conductor, after the adjudication was declared, rendering the first selection of the competition, the overture from "The Talisman," by Lester Brockton. This was the selection in the band competition at the Calgary Stampede.

The members of the Vulcan band desire to thank the residents of the town and district for hearty support received by attendance at Calgary and Lethbridge exhibitions and by generous financial assistance toward the expenses of these trips.

We may say that the band renders a great service to the town and surrounding country and that, in return for this, nothing is asked. The sincere thanks of all are tendered for this real contribution to community life, and congratulations are tendered on the success achieved at the recent contests.

WEDDING BELLS

HIGGINS—BROWN

On Thursday afternoon, July 18th, at the Manse, Vulcan, Elvessa May Brown, daughter of Mr. and Mrs. Samuel Brown, and Robert Wellington Higgins, son of Mr. and Mrs. Thomas James Higgins, were united in the bonds of matrimony by the Rev. J. N. Brunton in the presence of a few friends. The happy couple will make their home in Vulcan.

McLEAN—MIDDLETON

A quiet wedding was solemnized at the home of Rev. A. C. Bryan, Calgary, when Nellie, youngest daughter of A. C. Middleton, and Edward A. McLean were united in marriage. The bride was supported by her sister, Miss Olive Middleton; the groom by Alan Chapman.

After the ceremony the young couple left for a motor trip to the Western States. Upon their return they will reside in Calgary.

The bride and groom are both well known in Vulcan and district, and they have the best wishes of the community.

GOOD DEEDS

The Good Deeds W.I. met at the home of Mrs. Jack Deans, Thursday, July 18. The meeting opened by the singing of "O Canada," repeating the Creed and saluting the flag. Mrs. Elton Lilly gave a paper on "Child Welfare." Roll call was answered by the bright sayings of children. Mrs. A. J. Kennedy thanked the W.I. for plant sent her during recent illness. A bank account was opened for Mr. and Mrs. Roy Lilly's infant son, David Leroy Lilly.

Mrs. McMaster and Mrs. Thorne were judges for the window boxes in the six school districts, when the following were awarded prizes: Richmond Hill, 1st prize; Twin Coulee, 2nd; Harvey, 3rd. The Golden Rule invited the Good Deeds to join them in a basket picnic at the Little Bow after the meeting was over and several attended when a good time was had by all. The next meeting will be at Mrs. Foster's when Mrs. Martin, Constituency Convenor, will be asked to speak.

RECOGNITION OF BRAVERY MADE

The board of investigating governors of the Royal Canadian Humane Association, meeting at Hamilton, Ont., has awarded a parchment certificate for an act of bravery to Robert Thomas, Milo, Alta., for the rescue of George Howell and Dana Beckner from drowning in Lake McGregor, Milo, Alta., December 30th, 1928.

ST. ALDHELM'S NOTICES

Sunday School, 10 a.m.; Holy Communion, 11 a.m.; Evensong, 7.30 p.m. Service at Eastway School at 3 p.m. The Church of England will be closed during the month of August as Mr. Kemp will be away on holiday.

Vilhjalmur Stefansson—Known as the Greatest Living Canadian, will lecture on "The Friendly Arctic," on the Second Night of Chautauqua.

VILHJALMUR STEFANSSON TO VISIT VULCAN

Vilhjalmur Stefansson, reputed to be the greatest living Canadian, will lecture on "The Friendly Arctic" on Tuesday, July 30, at Vulcan.

Stefansson has just returned from lecturing in the oldest universities of Europe, including Oxford, Cambridge, London, Berlin, Copenhagen, Oslo and Stockholm. He is an outstanding lecturer, and combines as few others a record of achievement in polar exploration which has made him world-famous, with all the powers of a great public speaker. His wit is keen, his manner direct and simple; in fact, lads of ten are as keenly interested in the adventure and romance as an older mind, in the ideas he brings forth.

Vilhjalmur Stefansson was born in the little town of Arnes, Manitoba. His parents were among the early pioneers. He began his education in the little schoolhouse and finished his academic career at Harvard, gaining his M.A. in Anthropology.

It is largely due to the influence of this one man that the vast North is now entering a period of amazing development. It will be a privilege to hear this native-born Canadian, who has achieved world fame, lecture on "The Friendly Arctic."

VULCAN CHAUTAUQUA

Forty outstanding musicians, lecturers, dramatic artists and entertainers, many of them of world renown, will take part in the eleven splendid programmes which the Canadian Chautauqua will present in their tent in Vulcan from July 29th to August 3rd. The demand for season tickets indicates that the big brown tent will be filled to overflowing each afternoon and evening during that period.

Vilhjalmur Stefansson, world-famous Canadian explorer, scientist and scholar, speaks on the second evening of Chautauqua.

Tells About Africa
Major John J. Hill is another great Canadian who tells of frontier work, but in another part of the globe. Leaving Canada many years ago as an engineer under Sir Cecil Rhodes, Major Hill won for himself the name of the greatest living authority on Africa.

Major Joe Hanley will be the third of this trio of lecturers. He supplies the inspiration without which such ventures can never be made, drawing on his spectacular career as lawyer, clergyman, legislator and soldier for his address on "The Modern Crusader."

Boils Kettle On Ice
"Liquid Air," that marvel of modern scientific discovery, will be the subject of a remarkable demonstration by Elliot James. To liquefy air it is necessary to reduce its temperature to something like 300 degrees below zero. One of Mr. James' most popular demonstrations is that of a kettle boiling with a cake of ice as a stove, but that is only one of the dozens, at least as interesting, which he will give.

"Australia—the land of the kangaroo" is known to most Canadians merely as an island continent marked red on the map. Consequently Miss Constance Neville-Johns' lecture on this subject is particularly delightful. As she speaks, she shows crayon sketches of her homeland, native weapons and tools, and she intersperses her talk with native songs and the imitation of the strange and beautiful calls of the animals found only there.

The Toronto Operatic Company will give a programme in which the most glorious and the greatest of great musical compositions are given artistic treatment by vocal and instrumental artists of real talent. There are eight members of the company, their vocal work being accompanied by piano, violin and cello. The programme which they give on the third evening is in costume throughout, with beautiful scenic and lighting effects.

(Continued on Back Page)

SILVER WEDDING IS CELEBRATED

The home of Mr. and Mrs. David McIntyre was the scene of a very happy event on July 18th, 1929, when they celebrated their twenty-fifth anniversary.

The dinner table was beautifully decorated. The wedding cake centred the table surrounded by candles. Dinner was served by Mrs. McIntyre, Mrs. Alfred Sales and Miss Eunice McIntyre.

The cake was cut by the bride of 1904, after which a toast was offered by Mr. L. Williams. Everyone joined in heartiest congratulations, wishing them every success and happiness for the future.

They were married at Grafton, N. Dakota, on July 18th, 1904. To them were born five children, Mrs. Alfred Sales, Gordon, Wallace, Eunice and Mervin, all of whom were present except Wallace, who was unable to attend. They also have two grand-children, George and Lorne Sales.

The guests present were: Mr. and Mrs. Martin Hanson, who lately celebrated their twenty-fifth anniversary, Mr. and Mrs. E. Arney, Catherine Amey and baby Edward, Miss H. Sales and Miss Jeanette Sales (Calgary), Miss Ethel Dingley (Calgary), Mr. L. Williams, Mr. Wm. Glendinning, Mr. E. Chiswell, Mr. Jack Packwood, Mr. and Mrs. Alfred Sales, George and Lorne Sales, Mr. Gordon McIntyre, Miss Eunice McIntyre, Master Mervin McIntyre.

The happy couple were the recipients of many beautiful silver gifts.

In connection with the forthcoming fair at Lomond, August 1 and 2, the Vulcan Elks will have charge of the carnival. The proceeds will go to the Elks Benevolent Fund, and the local "Hills" expect to repeat the success of last year.

BLACKIE TRIMS CALGARY

Solloway-Mills nine of Calgary, under the management of "Tiny" Thompson, took the first game of the Calgary Brewery Challenge trophy series by defeating Blackie 6-2 at Blackie Friday night.

Blackie strengthened for the series, securing "Red" Flaherty and Rose of Spokane, and Hess and Bissett of the Rockyford club.

Dodger Lewis opposed Rose in the hurling duel and held the locals to eight scattered hits, while the visitors obtained 12 off the Spokane twirler.

Blackie scored a run in the first inning and one in the seventh. Calgary went ahead in the second; scoring two runs, while they added two in the fourth and two more in the fifth.

Calgary 020 000 000—6
Blackie 100 000 100—2

Batteries: Lewis and O'Shea; Rose and Hess.

Blackie still retains possession of the Calgary Brewery challenge cup. After dropping the first game of the series, the locals trimmed Solloway-Mills nine of Calgary, 10 to 0, on Saturday and won Sunday's game, 6 to 3.

Jim Crotty, the Blackie hurler, was the hero of the series, as he pitched the two games, and outside of the second inning of Sunday's game, held the visitors scoreless. Crotty's fast ball had the Calgaryans baffled as they only made four hits Saturday and seven on Sunday.

The locals hit hard and often and were worthy of their triumphs. Bill Walker started hurling for Calgary on Saturday, but his teammates lacked the necessary support. The first two runs scored off him were gifts, as the runners would have been easy outs if Catcher Foss had been playing on the plate. Jenkins threw wide to Martin on an easy double play and this gave Blackie two more runs. Lucas relieved Walker and was hit hard.

The Sunday game was interesting, with Crotty having the better of Lewis in a hurling duel. The locals secured 12 hits.

Saturday's Game
Calgary 000 000 000—6
Blackie 023 002 30x—10
Walker, Lucas and Foss and McGoldrick; Crotty and Hess.

Sunday's Game
Calgary 030 000 000—3
Blackie 110 010 12x—6
Lewis and Jenkins and McGoldrick; Crotty and Hess.

Tuesday the Blackie team took the best end of a 16-2 score, playing against Coutts on the High River grounds, before a large crowd.

UNITED CHURCH NOTES

The regular services will be held at the United Church next Sunday morning and evening at the usual hour.

The morning service, and Sunday School will be combined. Services will also be held at Mayview at 2 and Red Cross at 3.30 p.m. Everybody welcome.

THROUGHOUT CANADA

TO CANADIANS in every walk in life there is insured by the organization of the Bank of Montreal an adequate and dependable banking service, available through more than 600 Branches distributed in every province throughout the Dominion, from the Atlantic to the Pacific, and from the international boundary to the shores of Hudson Bay.

Each Branch, no matter where situated, has behind it the full resources of the whole organization, which has Capital and Reserves of over \$70,000,000, and Assets exceeding \$900,000,000.

BANK OF MONTREAL

ALTA COAL IN LEAD

With a record of standing first among the provinces of Canada in coal production and area, Alberta is destined to become one of the greatest coal centres of the world, and coal mining at the present time stands only second to agriculture as Alberta's chief basic industry.

The opening up of the eastern market after much negotiation is bound to result in further development in the coal areas of the province. The amount of progress in that direction is stated to be unlimited.

Until recently the chief value of this great resource has been the satisfying of local fuel demands. During the past two years, however, considerable expansion has taken place in supplying other prairie provinces, and there has been a good demand for Alberta coal from these points.

In addition to the large fields of coal in the Drumheller, Crow's Nest Pass, and Northern and Southern Alberta districts, the recently reported discovery of iron ore on the shores of Lake Athabasca, brings to the vast fuel wealth of the province, a real significance and importance. If developments confirm the reported richness and accessibility of the iron ore deposits, these two potent factors of wealth and industrialism—coal and iron—will mean a great deal to Alberta.

Alberta's coal reserve is estimated at 1,059,000,000 tons, a sufficient reserve to last the whole of Canada for many generations. This reserve comprises 14 per cent. of the entire world's coal reserves, 72 per cent. of British reserves, and 87 per cent. of Canada's reserves.

One way of making a little easy money is called to the attention of anyone who has the nerve. It worked well at Windsor, Ontario, why not in this district. A "petting bandit" was queering as a plain clothes officer, has been exacting tribute from automobile spooners in country districts. Occupants of parked cars down lonely side roads have been threatened with arrest by the man who flashes a badge and sometimes a gun, but who has been willing, after much parley, to accept the fine on the spot and leave the couple to themselves.

FAMOUS MEN HERE

Several world famous men are to appear in Vulcan on Chautauqua programmes starting July 29th. Among the notables and features that have been booked to appear are Vilhjalmur Stefansson, world-famous Canadian Arctic explorer, discoverer of the "Blonde Eskimos," whose career of intrepid courage has resulted in a vastly increased general knowledge of the earth; Major John Hill, the greatest living authority on Africa, who was at one time on the engineering staff of the late Sir Cecil Rhodes, South African empire builder and founder of the Rhodes Scholarships; Major Joseph Hanley, past District Governor of Rotary, a member of the Legislature, and who saw service overseas; Elliot James, distinguished scientist, with his unique demonstration of the wonders of liquid air; Constance Neville Johns from Australia; "The Patsy" and "Peg o' My Heart," three noted musical comedians. These are a few of the artists and other attractions appearing before Vulcan Chautauqua audiences this year.

ALL EDISON'S FAULT

Another heavy thinker has risen to blame Thomas Edison and his electric light, for the disappearance of family life. In olden days, before electric light, there was usually one fairly well lighted room in every home—the sitting room. Here the whole family was obliged to gather and remain, because all else was outer darkness. Willynilly, the young folks, spent the evening with the older people, listened to discussions on grown up matters absorbed much of the adult influence which has no chance of "taking" in this well lighted age.

Nowadays, there is almost universal day light. Remotest corners are lighted. One room is as brilliantly illuminated as another. Families do not need to herd together to get the benefit of the one good light. There is light everywhere, and the consequence is a general scattering in every direction. All poor Thomas' fault.

UNKNOWN QUANTITY

Although Alberta does not appear to be looking after all her children as well as she might this summer, at any rate she is turning a smiling face to her visitors. Apparently her maternal instinct is sub-servient to her company manners. It is rarely that she can be depended on to be as uniformly gracious as this year. Yet day after day she greets her hordes of tourists with vast serenity. In the meantime some of her children are crying of thirst. But does she appease them. No, she is all set on being polite to the company.

Our Alberta is a fickle jade of inscrutable temperament. When visitors arrive, we never know with any security how she will behave. Will she storm and weep, will she chill, will she sulk, or will she smile. We never know.

This year she has settled down to a fixed immovable smile.

Company manners are all very well, but if she would just take a quiet little spell of weeping right now, her own family would feel kinder to her.

LADY OF DOWNING ST

For the second time in five years, Ishbel McDonald reigns at 10 Downing Street as hostess for her father, Ramsay McDonald. She is now 26, and is the youngest woman to have occupied this highest eminence of social-political life in England.

Personally, she is charming and unaffected, with a simplicity of manner that has won her the goodwill of Queen Mary and of many of the old aristocracy. Her youth and good manners, her amused and lively interest in the world, will be of more service to her than her diplomas for household science.

Her greatest responsibility will be to receive her father's guests and to preside at his functions, to open bazaars, appear at public functions, etc.

She will have to wear evening dress which, according to report, she does only under compulsion.

The advent of the Labor party into Downing Street introduces an element in which intellect and purpose will be uppermost rather than ceremony and social amenities. It was said recently of a leading Labor house hold that it was a place where you got the most highly informed conversation and the worst food in London.

It will be Ishbel McDonald's task to steer a wise path between those two opposing elements of English power—the thinking, aspiring Labor leaders and the graceful, ceremonious leaders of a more aristocratic element. Her charm and her sense of the ridiculous may carry her through.

NOTES AND COMMENTS

Men who are now ex-Ministers wouldn't mind that so much were it not that their jobs are now ex-dividend.

"He left his farm in a truck" says a newspaper telling about a farmer who went into Hamilton, Ont., and robbed a bank. The office girl says she never knew before what was meant by truck-farming.

At the same time, a man who will leave his farm in a truck is taking big chances of losing his farm.

Cabinet Ministers in Great Britain are supposed at regal functions, to wear knee-breeches. There is a lady Minister there now, so what is she to do?

It makes the sign too cumbersome to add to the word "Stop" the words "And that doesn't mean maybe."

It cannot be said that Hon. W. S. Fielding had to wait until he was dead to have his talents and virtues recognized. Even his opponents regarded him as a fearless, sagacious statesman.

Henry Ford told a reporter that when he was in London he saw only two men under the influence of liquor and one of them was a reporter. That is the stuff to give newspaper interviewers.

"Big tires are the best" says an advertisement. Just the same, one of them should be spare.

"Goes against the grain"—the binder and the combine.

Burns was right. The rank is but the parking line of taxicabs.

For the life of him the surgeon couldn't remember where he left his golf bag, so he re-opened the wound.

An Aberdeen committee sent out circulars asking prospective patrons to imagine they attended the bazaar and send along their contributions. The Aberdeen imagination can be developed to a point where they can imagine they sent along their contribution.

In Canton there is only one motor car for each thousand of the population. The only objection to that is that the driver has more than his fair share of pedestrians.

It's all right, of course, but it must be a shock to many people to see pictures of Labor Ministers in top hats and frock coats.

Wonder how long the Clydesiders are going to stand for that Labor Minister who wears spats?

Ramsay McDonald had to take the subway after the Pilgrims' dinner because he can't afford an automobile, although he gets a salary of \$25,000 a year. What ever became of that limousine with which he was presented by Sir Alexander Grant when he was Prime Minister the first time?

HARLAND | GIBRALTAR | ANACONDA | FAMOUS

4 Oil Companies in Waite Valley

These Companies are in no way connected but their holdings are interlocked in such a manner that should one become good it would benefit all. Note the diagram below:

HARLAND

To those of you who have not investigated our proposition, we earnestly invite you to see us at once. To those of you who have taken stock in our company we extend our thanks. Without your co-operation we could not have put Harland over the top—thanks to your generous support we are now able to proceed with the program marked out by your directors and thru these columns we will keep you informed as to the progress of Harland Petroleum. Thanks to yourselves, Harland is on the map. You have made Harland possible and we invite your criticism and would thank you for any suggestion which would benefit your company. Harland drilling site is situated between Famous Oils Limited and Gibraltar Oils Limited. Famous drills in the 40 acres cornering Harland to the south-east. Gibraltar drills 1 mile north of Harland. There is still time to get in on Harland at a reasonable price and we would like to explain the proposition to you. We reserve the right to return your money in case of a raise in price of Harland Petroleum Ltd. The present issue is nearly exhausted.

GIBRALTAR

We offer Gibraltar Oils Limited—an attractive speculative venture of great promise. Drilling site between Richfield on the North, Harland on the South.

HOLDINGS

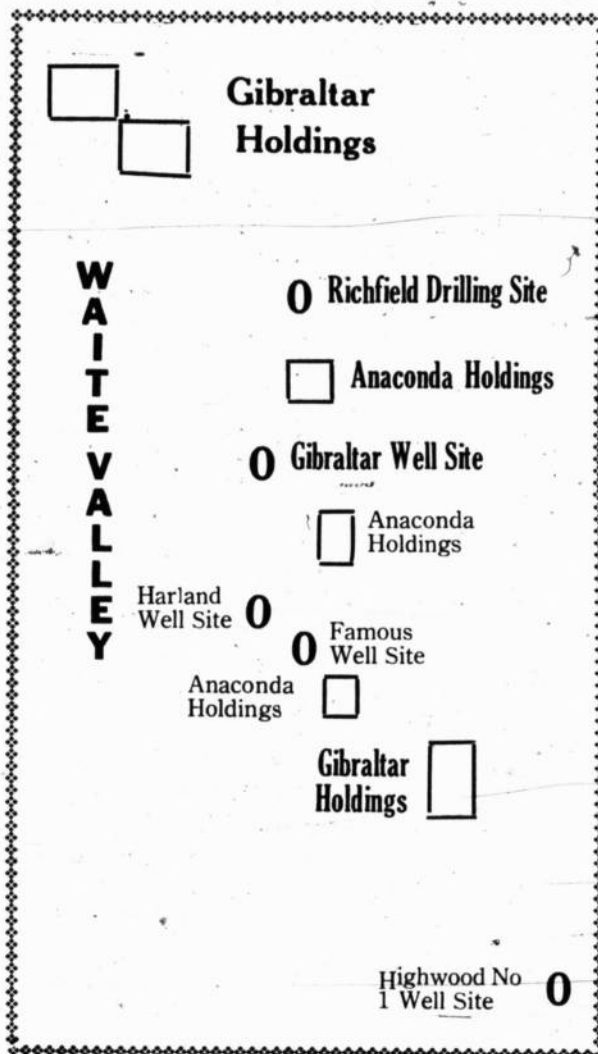

780 acres situated in Waite Valley.
\$75,000 Cash in Treasury.

DIRECTORS

George M. Bell, Publisher, Calgary, Alta., Edmund Taylor, President Loughheed & Taylor, Ltd., Calgary, Alta., Hon. V. W. Smith, Minister of Railways and Telephones, Edmonton, Alberta, John Michaels, Merchant, Edmonton, D. M. Dugan, M.L.A., [former Mayor of Edmonton] Edmonton, Alberta, Michael Shady, Contractor, Edmonton, S. J. Helman, Barrister, Calgary, J. J. Lundy, Oil Operator, Calgary, Stanley J. Davies, Geologist, Calgary, John Shanks, Pres. Nordegg Collieries, Nordegg Alberta.

With a strong directorate as above, and the excellent holdings in Waite Valley we unhesitatingly recommend the purchase of the Shares of Gibraltar Oils Limited, at \$1.50 per share.

C. B. Shimp Land Company
Phone 82 Vulcan, Alta.

Famous Oils Ltd.

1940 Acres

20 acres South Turner Valley
280 acres Waite Valley
260 acres Highwood Valley
640 acres Blood Reserve Structure

President: John Shanks, Mining Engineer, Manager of Brageau Collieries, Nordegg, Alberta, and a director on Gibraltar Oils Limited.

First well to be drilled on 40 acres adjoining the Harland Well in Waite Valley, said 40 acres concerning the Harland Well Site on the South-East.

Well No. 2 to be drilled in South Turner Valley adjoining Mercury Well.

We cheerfully recommend the purchase of Famous Oils at \$1.50 per share.

C. B. Shimp Land Company
Phone 82 Vulcan, Alta.

ANACONDA

4400 ACRES CHOICE LAND FAVORABLY LOCATED.

The Company owns 33,000 shares of Baltic Oils [Baltic is now drilling]. We advised you to buy Anaconda at 3 shares for \$1.00. Later we had a tremendous sale at 2 shares for \$1.00. We sold Anaconda at 80c a share till we were instructed to stop selling. We now advise you to get in on Anaconda at \$1.50 per share for we expect to see Anaconda advance to at least \$5.00 per share, possibly \$10 per share. They are a holding company and should equal A.P. Con. in time to come. We advise you to hold your Anaconda and add to your holdings at \$1.50 per share.

Highwood No. 1

Highwood No. 1 Well in limestone and shares selling at \$12.00 per share. Much depends on Highwood [Imperial] No. 1 well. If this well brings in a producing well, Harland, Gibraltar Famous and Anaconda will benefit greatly.

HARLAND

When taking allotments in Gibraltar, Famous Oils and Anaconda, please do not overlook Harland Petroleum.

2080 Acres Located on 10 Structures

140 acres Waite Valley
280 acres Paramount Structure
80 acres Herron Structures
320 acres Monarch Structure

ANTI IMMIGRATION

The annual conference on federal affairs conducted by the U.F.A. this week, entered one emphatic resolution stating that "in view of prevailing conditions, any expenditure of money for the purpose of bringing in to Canada settlers on the land is highly undesirable."

The meeting felt strongly against any subsidized immigration of any kind to Canada. The present population it is felt, was quite capable of increasing grain production.

The conference decided to telegraph Hon. James Malcolm urging amendment to the Grain Act in regard to issuance of new grain tickets to be made effective immediately. This may be done by order in council.

Regarding the restoration of trade relations with Russia, which was urged by the U.F.A. last year, the conference noted with pleasure that Premier Ramsay MacDonald intends that the British government shall recognize diplomatic and trade relations with the Soviet.

Another resolution was also sent in regarding Canadian nationality.

Some members expressed criticism of the postal department, Ottawa.

Gratification was shown that the proposal to revive titles in Canada had been defeated.

The Athabasca member Mr. Kellner maintained that the federal government should make grants to provincial governments for road construction and should build an all-Canadian highway.

RADIO

The recommendations of the Royal Radio Commission will be handed to the government in the near future. It was hoped at one time that the report of the commissioners would be completed in time for presentation to Parliament before the session closed, but the thoroughness of the investigation and the extent of the itinerary delayed preparation of the findings. The commission visited Europe and the United States and heard evidence in every province in the Dominion.

It is very probable that the commissioners will recommend the establishment of a chain of high power stations throughout the Dominion in order to permit the sending out of all-Canadian programmes regularly. It is recognized that such a system would go far to foster a strong national spirit. The Dominion is inundated with United States periodicals and with American radio programmes and this infiltration of foreign ideas and propaganda is not conducive to the building up of Canadianism.

It is claimed in the United States that the radio has done more to unify the Union than any other element in the lives of the people. The association is direct and intimate. It has stimulated interest in American geography, politics, music, agriculture, sports, the drama and many other subjects. When chain programmes are sent out the country becomes compact.

The same will be true in Canada when all-Canadian programmes are put within reach of all listeners-in. There is no reason, when the mechanical requirements are supplied why Canada cannot supply as good programmes for its own people, as anything that floats across the border. The federal and provincial governments should co-operate in the movement and share in the expense. The Dominion has reached a state of development where it should no longer be dependent on foreign sources for its radio programmes.—Calgary Herald.

WARNING TO AUTOISTS

As J. C. Crane, Manager of the Continental Supply Co. and Mrs. Crane were motoring home from Calgary one evening this week they were motioned to stop between Calgary and Midnapore by a car which was half in half out of the ditch. Thinking they needed help Mr. Crane stopped his car and a man promptly came over followed by another and stuck a gun in his face with a pressing invitation to contribute to the wants of some of his poorer fellowmen. He dug up \$40 all he had on him. The hold-up men also looked in Mrs. Crane's purse but refrained either from gallantry or some other reason from removing any of the contents. The thieves have not yet been caught.

The above should be a warning to autoists particularly to ladies or those who have ladies along not to allow their good nature to be imposed on by distress signals but sternly and coldly go on your way and let a police car bring help. This is not the first case of this kind which has happened. —Okotoks Review.

The Saskatoon Star-Phoenix received a letter from the assistant editor of the National Geographic Magazine, Washington, D.C. in which reference was made throughout to "Saskatoon, British Columbia." If all the other information published in National Geographic is equally as accurate as the above, it is no cause for wonder that the Americans picture Canada only as a land of igloos and England as a country of beer mugs and plus-fours.

Socrates started to learn
music after he was 60 years
old; Cato started in on
Greek at 81; Plutarch, at
79, started in on Latin.
Chaucer began his "Can-
terbury Tales" at 54, and
Ben Johnson began the
study of Dutch at 62.
Maybe there's some hope
for us middle-aged guys
after all.

A 11-steel construction
mounted on a durable
steel frame, is fireproof
and not subject to damage
from vibration. If you need
a new threshing rig this
fall, don't fail to see the
McCormick-Deering.

Bigamy is a form of in-
sanity which makes a man
insist on paying 3 board-
feels instead of only two.

A POULTRY HINT
If your chickens have
worms add 3 pounds of
tobacco dust to every 100
pounds of mash and feed
the mixture for about 4
weeks. Then give the
chickens a little dose of
saits at the rate of 1 lb. to
100 lbs. of mash. Then
start the cycle over again.
In this way you can rid
your chickens of worms in
excellent shape.

And heres a little advice
to the young lady: Don't
trust a husband too far;
nor a bachelor to near.

THRESHERS

McCormick-Deering
Harvester Threshers have
a spiked drum feed con-
trol, which prevents was-
teful feeding; an efficient
recleaning device in which
all grain is given a second
and thorough cleaning;
trouble-proof ball-bearing
cylinder; 4-section straw
rack; improved platform
spring suspension; and
many other valuable fea-
tures.

According to the records
the earliest flag in the
world was a Jewish em-
blem originated a bout
1500 B.C.

What is the reason so
many of our farmers pre-
fer the McCormick-Deer-
ing Thresher and Com-
bine Tractor? \$1.00 will
be paid for the best an-
swer in twenty-five words.
Winners name will be
published next week.

HOW'S THIS

Waitress: "How do you
wish your eggs cooked,

MANITOBA HIGHWAY

The highway construction program
of Manitoba for 1929 includes clear-
ing the road to the Ontario boundary,
putting an asphalt coat on twenty-
eight miles of the Emerson highway,
some travelling on the same road, ap-
plying dusting oil on part of the
Winnipeg Beach and Selkirk roads,
and surfacing eighteen miles of the
Winnipeg Beach highway with cal-
cium chloride. There will also be
some additional travelling and grad-
ing in various parts of the province.

This looks like a fair programme
but the Winnipeg Tribune finds fault
with it on the ground that it is not
keeping pace with the needs of the
situation. It calls for a concrete
highway from Emerson to Winnipeg
Beach and at least an asphalted sur-
face from Winnipeg to the Saskat-
chewan boundary. In addition the
road to the Ontario boundary should
be completed this year and not de-
layed until 1931.

It has been found in Manitoba as
in Alberta that gravelled roads will
not stand up under heavy traffic. Two
years ago the road to Winnipeg Beach
was a good gravelled highway. Now
it is being cut to pieces rapidly. To
maintain it in good shape, under the
heavy traffic it carries, the Tribune
believes, will cost more in the long
run than to get a permanent concrete
road started and completed. The same
thing applies to the Emerson highway
though in this case the deterioration
is not so marked yet. The sooner the
construction of a concrete pavement
is completed, the smaller the ultimate
cost of the road will be. More grav-
elling, oiling and asphaltting are ex-
pensive substitutes because the work
is never done.

ATTACKS TEXT BOOK

Maclean's magazine, through its
editor, Napier Moore, has entered the
lists against the use of American
text books in Canadian schools.

While there is absolutely no quarrel
with anything American, yet it does
seem ludicrous that Canadian child-
ren should be taught Latin by read-
ing translations of the Star Spangled
Banner. It does not really matter,
except that it shows considerable
lack of initiative.

One excuse for using certain Ameri-
can text books is that with the limited
circulation it would not pay to have
Canadian text books written by Cana-
dians. This is a sudden new attack
of thrift, as all parents know, the fre-
quency with which text books are
changed. It ought to be paying some
body to write text books as enough
people seem to be getting royalties.

Two of the most flagrant offenders
in the line of text books are West's
"Modern Progress" and Myers "Gen-
eral History" Alberta and Manitoba
have crossed these two off the lists.
But other provinces are using either
or both.

The difficulty in these books is that
while there is no serious distortion of
Great War History, yet naturally
there is no effort to amplify Canadian
participation.

In the original edition of West's
History used for quite a few years,
Canada's part in the war was con-
densed in nineteen words. The war
is divided into two parts—before U.S.
entry and after. After a storm of
protest, a Canadian edition was intro-
duced, with a number of additional
pages dwelling on Canada's part.

The Myer's history is a worse offen-
der. It treats all but American en-
deavor in words of this sort "For
about a year and a half, the French,
aided by a small number of British
and Belgian troops, held back the Ger-
man masses." As a matter of fact
Britain had 750,000 men at this time
on the Western front.

These histories are quite all right
in their own country to be used as
text books. But to be used in Cana-
da as a study of British and Cana-
dian-war endeavor, they are, to say
the least, utterly inadequate.

"PEG O' MY HEART"

HERE NEXT WEEK

"Peg o' My Heart" will be staged
on August 2nd at Vulcan by the Cana-
dian Players under the direction of
Ralph Martin Erwin. It has been
reputed to be the finest Irish comedy
ever staged. It is irresistible be-
cause it deals with Love, Youth,
Laughter. In the past decade no com-
edy has been so amazingly popular.
It has had successive yearly runs in
London and New York, and has be-
come known as "the International
Laughing Success."

The story deals with Peg, the
daughter of an improvident but lov-
able Irishman and an aristocratic
English woman on whom her rela-
tives had turned their backs when she
set out for America with the husband
of her choice. By the will of one of
Peg's uncles, who repented on his
death-bed his unkindness to his sister,
the little Irish-American maiden is
brought to England to be properly
reared at the expense of his estates.
Peg is received into the family of an
aunt, not from love, but for the sake
of the money that her care and in-
struction brings.

Peg finds little to make life pleas-
ant except for her friendship with
Jerry. You must see this play to
know the rest. It is an undoubted
triumph—enhanced in popularity by
its sweetness and cleanness.

BERRYWATER NEWS

Mrs. Clifford Love was hostess to
the local U.F.W.A. on June 26, there
being a good attendance of members,
and Mrs. Oldfield presiding. After
many items of business had been dis-
cussed with the roll call was answer-
ed by each lady giving her mother's
maiden name and birthplace, the
name Mary being most frequently
given. As in previous meetings this
year, whenever time permitted,
several members took part in physical
drill, Mrs. F. Mensinger acting as
leader. At the close the hostess served
a dainty lunch.

Many local people were visitors to
Calgary during Stampede week.

Miss Wainwright has resigned as
teacher of Berrywater school.

Miss Nellie Douglass, who has been
attending school in Calgary, is at
home for the holidays.

Mr. and Mrs. Donald Sinclair and
family are away, having a good time
at Waterton Lakes.

Miss Della Carr has returned from
visiting relatives at Morrin and Oko-
toks, now fully recovered from her
recent illness.

As there was not a good attend-
ance of representatives from the var-
ious locals interested in the proposed
erection of a community hall, no
definite steps were taken by those
who did attend a meeting on July 18
at Mr. Wilson Oldfield's.

Mrs. N. Campbell, Mrs. J. K. Mc-
Lean, Mr. D. B. Sims and Mr. N.

Campbell were delegates to the re-
cent convention at Lethbridge of the
Alberta Institute of Co-operation.

A meeting of the U.F.W.A. was
held at the home of Mrs. H. C. Dou-
glass on July 17, twenty ladies, mem-
bers and visitors, being present. Mrs.
Oldfield presided over an interesting
and enjoyable meeting. Mrs. Mills
read a paper on Social Welfare, and
arrangements were made and commit-
tees elected for the entertainment of
various locals at the home of the
president on August 7th. A report
of the junior conference, written by
Miss Jessie Sinclair, who is away on
holiday, was read by Mrs. J. McLean,
and interesting reports were also read
by Mrs. N. Campbell and Mrs. Mc-
Lean of their visit to the Co-operative
Convention at Lethbridge. After the
roll call, which was answered by
"Hints on Saving Time in Sewing,"
the hostess served lunch, and pictures
were taken of all ladies present.

Mrs. B. Mensinger has returned
from a delightful trip to Grande
Prairie visiting her parents and sis-
ter, Mr. and Mrs. J. Base and Bever-
ley, former residents of this district.

Mrs. E. Mills and Mrs. Fred Men-
singer are delegates to the Bow River
Constituency Convention on July 30
and 31, to be held in Gleichen.

RED CROSS NEWS

Miss Pearl and Lizzie Fulton left
for the coast on Saturday for their
holidays and to visit friends and re-
latives.

We regret to hear that Mrs. Jack
Smith is not improving as well as
she should. Her many friends hope
that she will soon be well again.

Mr. Tom Love was operated on in
the Vulcan hospital and is getting
along as well as can be expected. His
many friends wish him speedy re-
covery.

Chautauqua at Vulcan

ELLIOTT JAMES
Scientific Demonstration of Liquid Air by Outstanding Scientist on
Fifth Afternoon of Chautauqua.

Mr. and Mrs. Harry Johnston, Jun-
Gordon and Elizabeth, motored down
from Calgary Saturday and spent
Sunday with relatives and friends.
Mrs. Johnston will spend a week or
more here.

Mr. and Mrs. O. H. Snow and
daughter, from Raymond, also Miss
Norma Snow, matron of the Cardston
hospital, and Miss May Snow, of
Cardston school staff, spent a night
with Mr. and Mrs. William Snow this
week on their way to Banff and Win-
dermere Highway.

Joe Snow is wearing a smile this
week having received word that he
passed in his music exam with second
class honors.

Mr. and Mrs. Doane, also Mr. and
Mrs. McKinnon, visited the turkey

farm out of Calgary a few miles and
were much pleased with the surround-
ings.

Dale Graham and Jean McRae were
Calgary visitors during the week.

24 BALL and ROLLER Bearings

Reduces Friction
and Makes for
Ease of Operation

Drive it
Yourself—
there is no
Better Test

Ford Car Features

Choice of colours
35 to 55 miles an hour
40-horse power engine
Full balloon tires
Fully enclosed six-brake system
4 Hydraulic hydraulic shock
absorbers
30 to 35 miles per gallon
of gasoline
Shatterproof glass windshield
The 1 proof ignition lock
Reliability and low upkeep

LAVISH use of ball and roller bearings in the Ford car greatly
reduce friction and contribute to easier operation and
longer life of the car. Note the coasting ability of the Ford car
as compared to a 30 other automobile in its weight class.

Examination of the chassis will at once show the advantages of
these bearings. On the rear axle pinion and differential all the
taper roller bearings are held to such close limits that adjustment
is unnecessary, pinion and ring gear always being held in proper
mesh.

Spiral roller bearings are used in the rear hub because of their
large bearing surface and ability to carry heavy loads. One is
also used on the drive shaft at the universal joint end, to assure
perfect alignment.

Taper roller bearings in the front wheels have a simple adjust-
ment. Roller thrust bearings on the spindle balls make for easy
steering. Two bearings, one above and one below, take up the
thrust on the steering worm.

The fan shaft operates on a roller bearing. The generator, the
transmission, the connection between the spline and drive
shafts, the clutch, the flywheel—all these important parts are
made more efficient and enduring through the use of ball and
roller bearings.

These bearings form a striking illustration of the engineering
skill and care used in building the Ford car.

SMITH COAL

Lee Smith again takes pleasure in announcing to the public of the new way of getting coal at the Mine. We have just completed a 50 ton Elevator bin, also a scale to give you correct weight. I again take pleasure in telling you all to come down and try the new way of handling coal. No weighing, no short weight, but snappy serving. The Coal of Quality.

Lee Smith, Manager.

VULCAN CHAUTAUQUA

(Continued from Front Page)
Bessie Andrus and her "Sunshine Girls" present a programme and prelude on the fourth day of Chautauqua. Miss Andrus, who was formerly solo violinist with the Chicago Symphony Orchestra, has associated with her three young ladies of exceptional charm and entertaining ability. Vocal and instrumental music, readings, dances and some scenes from "Hansel and Gretel" will be given.
The "Petrie Quintette" in a "Merry Musical Melange" present the final programme. Although there are only five members of the company, they play about twenty instruments. Each has an attractive platform personality and there is a verve to their work which is the envy of many artists. They are true musicians, but in order best to fulfill the requirements of a closing programme, they give special emphasis to novelties.
"The Patsy" and "Peg o' My Heart," the two plays given in the series, are both known and loved wherever the stage is popular. "Peg" is the older play and best known. It has been presented in almost every country of the civilized world, and it has brought forth laughter and tears wherever it has played. "The Patsy" is newer. It is at present running in its third year in both London and New York.

HIGHLAND NEWS

Mr. and Mrs. Jim Dew motored to Nanton on Tuesday.
Mrs. Mervin Kehr returned on Saturday last after a six weeks visit at her old home near Marshalltown, Iowa.
Sam Hansen has been on the sick list for some time. We are glad to report that he is improving.
Mr. and Mrs. John Jacobson and Mr. and Mrs. Ed Kehr and children started last Saturday on a motor trip that will take them through several of the North West States.

REID HILL NEWS

Mr. Norman Todd, who has been a patient in an Edmonton hospital for some months, was able to leave the hospital this week.
Mr. and Mrs. Gordon Stewart are visiting with the latter's parents at Nanton, and from there will go on a fishing trip in the mountains.
Mr. Mainland has purchased Mr. S. Hopkins' farm and is now residing there.
Mr. and Mrs. Willcraft, of Rainy River, who have been guests of Mr. and Mrs. W. McLean, left Monday for San Diego.
If you want to know how and where to catch trout ask Lloyd Munson or Ross Walker.
Mr. and Mrs. R. Fitzpatrick and family, who have been holidaying at Banff, returned home last week.
B. Messinger's winter wheat is beginning to take on a ripening tinge and looks to be a very good stand.
Little Lloyd Edgington is now the proud owner of the Shetland pony which took first prize at the Calgary Exhibition.
Mr. S. Hopkins, of Reid Hill, this week, had an enquiry from Mr. Geo. Broadbent, of Liverpool, England, statistician to the Liverpool Grain Exchange, re condition of crops in Southern Alberta, to which he promptly replied.

CANADIAN CHAUTAUQUA SPONSORS' CONTEST

The world claims Stefansson as the greatest living Canadian.
The MacMillan Company has offered to the winners in Vulcan three very excellent, and expensive books—one each to the First, Second and Third Prize Winners. They are also prepared to offer for the three best essays on the entire circuit—a complete set of seven volumes to the First Prize winner, a portion of a set to the Second Prize winner, and a lesser portion to the Third Prize winner.
They are anxious that Canadian boys and girls shall have a knowledge of the achievements of this distinguished Canadian.
The title of the essay will be: "Why is Stefansson the Greatest Living Canadian?"—not to exceed 100 words—and only open to those of sixteen years of age and under.
Full particulars appeared in this paper last week.

Alberta Wood Preserving Limited

This Company is extending its business very considerably, and its securities should become quite attractive in the immediate future.

We Recommend the 7 Preferred Issue at 99 and Accrued Dividend.

MILK DANGER

It is out of the question to produce milk that does not contain a few germs. Most of them are harmless, of course; the souring germs are the chief of these. But no matter how carefully milk is produced, there is always the possibility that it may become accidentally contaminated with more harmful agents. Then we are in real danger if the milk is submitted to a temperature above 50 degrees, the point at which the bacteria begin to multiply.

Milk of the highest quality contains about three thousand germs in every fifteen drops. This may seem to you like a tremendous number. You must recall, however, that this number of germs could be placed on the head of a pin and they wouldn't be at all crowded. They are very minute, microscopic objects. You may be sure that having no more than three tens and germs in fifteen drops of milk is an evidence that the milk has been produced under conditions favorable to cleanliness. It may be considered as the very best "Grade A" milk.

What happens to this fine milk if it is kept at a temperature below 50 degrees? Practically nothing. There will be almost no increase in the number of germs. Even after twenty-four hours of exposure to this temperature, there will be no appreciable increase in what is known as the "bacterial count"—the germ content.

Let us begin with that same sort of splendid milk, with a bacterial count of three thousand, and submit it to a temperature of 68 degrees for twenty-four hours. You will be amazed to hear that the three thousand bacteria have become four hundred and fifty thousand. Of course, such milk is absolutely dangerous to give to adults to say nothing of what it will do to babies.

In summer weather, when the temperature may be 80 degrees or 90 degrees, in twenty-four hours the three thousand bacteria have multiplied to a billion and a half! You don't need to be a doctor to realize how dangerous this mess would be if placed in the human stomach.
